PROJECTS

Bookshelf

HTML, CSS, JS, Semantic UI, nodeJS, express, mongoDB, mongoose, passport

Bookshelf is a web app where users can share and read pdf books. Users can upload .pdf files. It's more like a community for book lovers. Users can also comment to share their feelings.

Foodology

Semantic UI, JS, nodeJS, express, Spoonacular API

A recipe finder app where users can find millions of recipes at their fingertips. User also finds all the ingredients list and also links where they can buy the ingredients. Users can add items to the in-built grocery list.

Campedia

Semantic UI, JS, nodeJS, express, mongoDB, mongoose, passport

Campedia is a web app for all types of travel lovers.This web app is free for all but with paid features. Users can find different camp places and can search based on their needs. Users also add places they visited with helpful information.

Online Car Sharing

HTML, CSS, JS, Bootstrap, PHP, MySQL

With this app users can share a car for the same destination. This app will reduce the cost of travel very significantly. Travel security will not be handled by this app.

Weather App

Semantic UI, JS, nodeJS, express, AccuWeather & Mapbox API

Knowing the weather is something that we all pretty much need to know. You can find things like the latest weather forecasts, hourly conditions, radar, and more.
